(M.A.N)**

abacus

THE JOURNAL OF THE
MATHEMATICAL ASSOCIATION OF NIGERIA

**VOLUME 49, NUMBER 1
MATHEMATICS SCIENCE SERIES
APRIL, 2022**

NR-ISSN 0001 3099

Editor-in-Chief:
Professor Muhammad Lawan Kaurangini, FICA
Kano University of Science and Technology, Wudil, Nigeria

National Executive Officers (2021-2023)

1. Prof. K. O. Usman	President
2. Prof. M. A. Yusha'u	Vice President
3. Alhaji Jimoh Taylor	National Secretary
4. Prof. B. Y. Isah	Asst. Nat. Secretary
5. Mrs. Okodugha Brigitta Eno	Treasurer
6. T. A. Muhammad	Financial Secretary
7. Dr. Sadiq Abubakar	Publicity Secretary
8. Dr. Aliyu Taiwo	Business Manager
9. Prof. Muhammad L. Kaurangini	Editor-in-Chief
10. Dr. Olayemi O. Oshin	Deputy Editor-in-Chief
11. Prof. Mamman Musa	Immediate Past President
12. Dr. A. J. Alkali	Immediate Past National Secretary
13. Mr. Bankole J	Ex-Officio I
14. Dr. Chika C. Ugwuanyi	Ex-Officio II
15. Dr. Abimbola N. G. A	S. A. to President

Abacus:

Submission of the paper

Authors are requested to visit www.man-nigeria.org.ng to submit manuscripts in Microsoft word and make payment accordingly.

Preparation of the manuscript

General: The manuscripts should be in English and typed with single column and single line spacing on single side of A4 paper. The first page of an article should contain;

- (1) a title of paper which well reflects the contents of the paper (Arial, 12pt),
- (2) all the name(s) and affiliations(s) of authors(s) (Arial, 12pt),
- (3) an abstract of 100-250 words (Times New Roman, 11 pt),
- (4) 3-5 keywords following the abstract, and
- (5) footnote (personal title and email address of the corresponding author). The paper should be concluded by proper conclusions which reflect the findings in the paper. The normal length of the paper should be between 10 to 15 journal pages.

Tables and figures: Tables and figures should be consecutively numbered and have short titles. They should be referred to in the text as following examples (e.g., Fig. 1(a), Figs. 1 and 2, Figs. 1(a)-(d) / Table 1, Tables 1-2, etc). Tables should have borders (1/2pt plane line) with the captions right before the table. Figures should be properly located in the text as an editable image file (.jpg) with captions on the lower cell.

Units and Mathematical Expressions: It is desirable that units of measurements and abbreviations should follow the System International (SI) except where the other unit system is more suitable. The numbers identifying the displayed mathematical expression should be placed in the parentheses and referred in the text as following examples (e.g., Eq. (1), Eqs. (1)-(2)). Mathematical expressions must be inserted as an object (set as Microsoft Equations 3.0) for Microsoft Word 2007 and later versions. Image-copied text or equations are not acceptable unless they are editable. The raised and lowered fonts cannot be used for superscription and subscription.

References : A list of references which reflect the current edition of APA format, to locate after conclusion of the paper.

Review

All the submitted papers will undergo a peer-review process, and those papers positively recommended by at least two expert reviewers will be finally accepted for publication in the Abacus Journals or after any required modifications are made and a payment of **₦15,000.00** as publication fee. The normal length of the paper should be between 8 to 12 pages. Any extra page will attract additional charges at the rate of **₦500.00** per page.

Copyright

Submission of an article to Abacus Journal implies that it presents the original and unpublished work, and not under consideration for publication elsewhere. On acceptance of the submitted manuscript, it is implied that the copyright thereof is transferred to the Abacus. The Transfer of Copyright Agreement may also be submitted.

Editorial Board

Professor Muhammad Lawan Kaurangini, FICA

Editor-in-Chief,

*Department of Mathematics,
Kano University of Science and Technology, Wudil, Nigeria*

1. Professor K.O. Usman, Provost, Federal College of Education, (Special), Oyo, Nigeria
2. Professor M. A. Yusha'u, Department of Science and Vocational Education, Usmanu Dafodiyo University, Sokoto
3. Professor M. O. Ibrahim Department of Mathematics, University of Ilorin, Nigeria
4. Professor B. Sani, Department of Mathematics, Ahmadu Bello University, Zaria
5. Professor B. K. Jha, Department of Mathematics, Ahmadu Bello University, Zaria
6. Professor B. Ali, Department of Mathematics, Bayero University, Kano
7. Professor E. Oghre, Department of Mathematics, University of Benin, Nigeria.
8. Professor Mueide Promise, DG National Mathematical Centre, Abuja. Nigeria
9. Professor U.N.V. Agwagah, Department of Science Education, University of Nigeria, Nsukka
10. Professor B.I. Olajuwon, Department of Mathematics, Federal University of Agriculture, Abeokuta.
11. Professor S. I. Binds Department of Science and Technology Education, University of Jos, Nigeria

Associate Editors (2021-2023)

1. **Professor (Mrs.) M. F. Salman**
Department of Science Education,
University of Ilorin, Ilorin, Nigeria
2. **Professor E. T. Jolayemi**
Department of Statistics
University of Ilorin, Ilorin, Nigeria
3. **Professor Herbert Wills**
Department of Mathematics Education,
Florida State University, Tallahassee,
Florida, U.S.A.
4. **Professor O.S. Adegboye**
Department of Statistics,
LAUTECH, Ogbomoso, Nigeria.
5. **Professor A. Gumel**
Department of Mathematics,
Arizona State University Arizona, USA.
6. **Professor B. A. Oluwade**
Department of Mathematical Sciences,
Kogi State University, Anyigba, Nigeria
7. **Professor M. R. Odekunle,**
Department of Mathematics
Modibbo Adama University of
Technology, Yola.
8. **Professor Y. Korau**
Department of Science Education,
Ahmadu Bello University, Zaria.
9. **Professor J. A. Adepoju**
Department of Mathematics
University of Lagos, Lagos.
10. **Professor G. O. S. Ekhaguere**
Department of Mathematics
University of Ibadan, Ibadan
11. **Professor M. A. Ibiejugba**
Department of Mathematical Sciences
Kogi State University, Anyigba.
12. **Professor A. U. Afuwape**
Department of Mathematics
Obafemi Awolowo University Ile-Ife,
Nigeria.
13. **Professor Mamman Musa**
Department of Science Education
Ahmadu Bello University Zaria.
14. **Dr. Olayemi O. Oshin,**
Department of Mathematics Education,
Federal College of Education (special),
Oyo.
15. **Professor Ibrahim Galadima**
Department of Science Education
Usman Dan-Fodio University Sokoto
16. **Professor S. A. Abbas**
Department of Science Education
Bayero University, Kano

TABLE OF CONTENTS

1.	Coefficient properties of a k-uniformly convex functions Associated with a Q-derivative Operator <i>Emelike Ukeje and chidinma N. Nwosu</i>	1
2.	Amenability of Pseudo Complete Locally Convex Algebras <i>S.A. Ayinde, A.K. Adio, R.U. Kanu</i>	7
3.	An Improved Sixth Order Multi-Derivative Block Method Using Legendre Polynomial For The Solution Of Third Order Ordinary Differential Equations <i>Badmus AM</i>	20
4.	Examiniing The Conversion Process Of Linear Programming Problem Into A Non- Symmetric Game, And Its Special Structure <i>¹Folakemi M. Okafor, ²Emmanuel Iyasere Adiri, ³Onyeka Patience</i>	37
5.	A Monte Carlo Simulation Approach To Modelling The Effect Of Residual Corruption Of Inccorrupt Persons On The Time To Extinction Of Corrupt Interactions In A System <i>Peter; O.¹, Agada, P. O.² and Aboiyar, T.³</i>	46
6.	Existence And Uniqueness Of Fixed Point In Partially Ordered Cauchy Space <i>Aniki, S. A.</i>	69
7.	A Coupled Fixed Point Theorem For Mappings Having The Mixed Monotone Type In Partially Ordered S-Metric Space <i>¹Mashina M.S & ²Zakariyya A</i>	77
8.	On Cardinality in Finite Semigroup of Full Order -Preserving Contractions <i>¹Shamsuddeen Habibu, ²Umar Mallam Abdulkarim (PhD), ³H.K Oduwole (PhD), ⁴Ibrahim Yusuf Kakangi and ⁵Jaiyeola Olorunshola Braimoh</i>	88
9.	Multiple Techniques Of Solving Linear Programming Model For The Optimal Usage Of Raw Materials And Profit Maximization In A Bakery <i>¹F.F Amurawaye, ²A.R Hassan, ³A.O Ogunyale and ⁴G. G Oyetoro.</i>	89
10.	On The Primitivity And Solubility Of Dihedral Groups Of Degree 4p That Are Not p-Groups By Numerical Approach <i>J. O. Ben¹, S. Hamma² and M. I. Bello³</i>	99
11.	Modified 3-step Implicit Linear Multistep Method for Time Series Forecasting <i>C. I. Nwokike¹, G. O. Nwafor², B. B. Alhaji³, K. M. Koko⁴, C. Nwutara⁵</i>	118
12.	Mathematical Modelling of Dengue Fever Incorporating Vaccination as Control <i>¹Mohammed, Abdullahi, ²Abdulfatai, AtteMomoh, ³Abimbola, N. G. A. and ⁴Ali, I. M.</i>	131
13.	Modeling The Impact Of Drug Resistance And Sensitivity On Transmission Dynamics Of Tuberculosis Incorporating Case Detection <i>A. A. Momoh¹, A. I. Kura², N. G. A. Abimbola³ and Ali I. M.⁴</i>	157
